Re: ezJacket and CPL Integration with Closing Software Programs

---

Mississippi Valley Title is pleased to announce that our agents can now use the integration between Old Republic Title's ezJacket and Closing Protection Letter software applications and LandTech, RamQuest, SoftPro, and Title Express

Now, Mississippi Valley Title agents can seamlessly generate policy jackets and closing protection letters without ever leaving their software application.

What does this mean for you?

- Save time by minimizing the need to work across multiple software applications.
- Information automatically transfers between systems so there is no rekeying and therefore, reduces the potential for errors.
- Transactions are simplified.
- Efficiency gains so the cost of doing business for Mississippi Valley Title agents are reduced.

Mississippi Valley Title Agents can now prepare policies and retrieve policy jackets in ValleyRite or through the integration with your software vendors.

COMMENTS OR QUESTIONS

For more information about the integration, please feel free to contact Bonnie Woods at 601-969-0222 or 1-800-647-2124.
